-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 31 July 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

Art Unit: 1761

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 3-8 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no support in the original disclosure for: "exposing...the curdlan" (claim 3, lines 5-6); "exposing...first coating" (claim 4, lines 5-6); and exposing "the coating" to an aqueous alkali solution (claim 5, line 5). It is the "meat product or processed meat product" that is exposed to an alkali or acid solution and not just the coating, as is now claimed. Further, there is no support for using a second, non-curdlan coating which is configured to complete gelling (claim 1) or that the acid is used for the purpose of neutralizing alkalinity of the first coating (claim 4).

Corrections are required.

4. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 3 is indefinite in reciting "comprising the first coating" (lines 6-7) since it is not clear why this is needed or what is intended thereby. This can

Art Unit: 1761

be corrected by changing the indefinite language to "and". Correction is required without new matter.

5. Claims 5 and 9 are objected to because of the following informalities: In claim 5, last line, "and" should be added after "coating". In claim 9, line 6, "product" is misspelled. Appropriate correction is required.

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 3 and 6-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP Abstract 09238653 as set forth in paragraph no. 3, Paper No. 051106.

8. Claims 4 and 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over The JP Abstract as applied to claims 3 and 6-9 above, and further in view of Nakao and Taguchi et al as set forth in paragraph no. 4, Paper No. 051106.

9. Applicant's arguments filed July 31, 2006 have been fully considered but they are not persuasive. Applicant's contention that the JP Abstract fails to disclose applicant's two step method is not convincing since the JP Abstract achieves the same result as applicant in one step by in situ formation of a curdlan film on the meat product.

Applicant's belief that Taguchi et al teaches away from acid gelling of curdlan is in error since Taguchi et al merely states that the resulting gels cannot be easily used for food

Art Unit: 1761

use. However, Taguchi et al is merely relied upon for the concept that acid gelling of curdlan is a viable alternative to heat gelling of curdlan.

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arthur L. Corbin whose telephone number is (571) 272-1399. The examiner can normally be reached on Monday-Friday from 10:30 AM to 8:00 PM.
